Slack in HL and HUIT

A very brief overview
Slack? What’s that?

Communication hub

Web based

Real time
How is it different from email?

Brief messages

Conversational communication

Group access
Access

Intuitive

Universal access (browser, desktop, tablet, smartphone)

Add-ons
Basic Use

Workspace

Channel

Direct messages
Find what you need quickly

Star

Pin

Search
Search Tips

Search a specific channel using “in:”

Search for messages sent by a specific user with “from:”

Narrow the timeframe of your search with “after:” “before:” and “during:”

Filter for other characteristics with “has:”
Don’t force it

Individuals, teams, and workgroups may have different use cases, preferences, procedures, and tools
Have fun!
