Order Log Report

The Order Log Report has been available since shortly after Aleph was implemented. This document includes information on the following:

- How the Order Log Report works
- Note on Action Dates converted from HULPR
- How to request the Order Log Report
- How to submit questions about the Order Log Report

How the Order Log Report works

The Order Log Report lists orders for which there are expired Action Dates in the order log. Separate reports are produced for the three order types

- Monograph
- Serial
- Standing Order

Note on Action Dates converted from HULPR

Many of the entries on the Order Log Report will be for action dates converted from HULPR. OPR data converted as different Order Log transaction types in Aleph ...

<table>
<thead>
<tr>
<th>HULPR stmt type</th>
<th>Order Log transaction type</th>
</tr>
</thead>
<tbody>
<tr>
<td>M</td>
<td>MEMO</td>
</tr>
<tr>
<td>N</td>
<td>NOTE</td>
</tr>
<tr>
<td>R</td>
<td>RECEIPT</td>
</tr>
</tbody>
</table>

Each line of the OPR from VENDOR to L3/L4 (including statement 001) was converted as transaction type ORDER. Note that a conversion error resulted in the stmt 001 action date appearing on all lines with Description ORDER so you will have to remove the date from all ORDER lines to prevent the order from appearing on the Order Log report. This applies to Standing Order and Serial orders only. On orders converted to Monograph order type, stmt 001 action dates were converted as Claim Date rather than as action dates in the order log.

For information on how orders were converted, see document Converted OPR data on the web at ...
