Using SEAS VPN

When you are out of seas premises or using Harvard University wireless, make sure you use the SEAS VPN tunnel to access SEAS resources.

- *vpn5.harvard.edu* and *vpn.fas.harvard.edu* are the same, you can use either name. **NOTE:** Don't forget the @SEAS part next to your HUID! If you can't access it, you may need to put a request to help@seas.harvard.edu so that your huid is included in the SEAS tunnel.

| You can use vpn5.harvard.edu or vpn.fas.harvard.edu | Select the SEAS tunnel |
