This Guide describes how to create and process objects for the New DRS (DRS 2) using Batch
Builder 2 – a Java desktop application that creates a DRS 2 batch deposit.

The objects belonging to the following DRS 2 Content Models are supported by this version of
Batch Builder 2:

- AUDIO
- COLOR PROFILE
- DOCUMENT
- OPAQUE
- OPAQUE CONTAINER
- PDS DOCUMENT
- PDS DOCUMENT LIST
- STILL IMAGE
- TARGET
- TEXT
- VIDEO

This software is intended for use with the New DRS (DRS 2). DRS 1 batches cannot be created
using this software.
