Introduction to Matlab (February 3, 2015)

When and Where

Date and time: February 3, 2015 (5 - 7 PM)

Place: 60 Oxford St. (Room 330), Cambridge, MA 02138

Speaker: K. Indireshkumar (Kumar)

Computational Scientist, SEAS Computing

Tutorial Materials

If you want to follow along, you need to bring a laptop with Matlab installed and active.

This tutorial will broadly follow the material at:

Matlab Tutorial

Downloadable files:

feb_3_tutorial.m (this contains all the material from the above tutorial)

elementarry.m

sinTaylorSeries.m

stat.m

There will be some added material on Fast Fourier Transforms.
