The DRS-users list is a Mailman mailing list maintained by HUIT Library Technology Services (LTS). LTS sends all DRS-related communications across this list to Harvard staff users of DRS systems and services. Staff users are also invited to use this list for discussion of DRS issues.

For information about posting a message, subscribing to the list or accessing the message archives, please see the DRS-users listinfo page: http://lists.harvard.edu/mailman/listinfo/drs-users.
