Welcome to the new Harvard Wikis help section! This re-vamped help section provides step-by-step guidance on how to create and manage content collaboratively using the Harvard Wiki. Get started by going to the Overview page and clicking the "Next" button.

In addition to the updated documentation, Wiki trainings are available from iCommons. There's a sign up sheet on the iCommons site here.

You can ask questions or suggest new content in the comments section of each page. If you’d rather email with someone about your question or request, please contact the Help Desk at ithelp@harvard.edu.

Happy Wikiing!

- the iCommons Team
