

# fMRI

These files will help you get your fMRI experiment up and running.

**init\_ScanningStudy:** instructions for logistics of how to get your behavioral experiment set up as a scanning experiment.

**scanningProtocol:** general protocol our lab uses when scanning; helpful for yellow badges to study.

Documents that you'll need when scanning:

-**metal screening form**

-**subject payment form**

-**debriefing form** (see IRB: Current)

-**MRI consent form** (see IRB: Current)

-**fMRI best practices:** A couple notes from Sam and fMRI analysis
