SEAS Compute Environment

Much of SEAS Research Computing (High Performance Computing) hardware infrastructure has moved to FAS Research Computing (FASRC). The remaining hardware is in "maintenance mode" and will be phased out. New users should obtain a FASRC account by visiting https://rc.fas.harvard.edu

- Connecting to your SEAS storage hosted in FAS RC
- Getting Started
- Recovering Deleted Data
- Setting up SSH Access to SEAS Hosts on Windows machines
- SSH Access to SEAS Hosts
- Using Scientific Software
- Using SEAS VPN
